

If you or a loved one has been diagnosed with pancreatic cancer, the Pancreatic Cancer Action Network can help.

We share resources and speak with more pancreatic cancer patients than any single organization in the world.

ABOUT THE PANCREATIC CANCER ACTION NETWORK

The Pancreatic Cancer Action Network is the national organization creating hope in a comprehensive way through research, patient support, community outreach and advocacy for a cure. The organization is leading the way to increase survival for people diagnosed with this devastating disease through a bold initiative — The Vision of Progress: Double Pancreatic Cancer Survival by 2020. To continue to accelerate progress, a goal to raise \$200 million by 2020 is also in place. Together, we can Wage Hope and rewrite the future of pancreatic cancer.

For more information, visit pancan.org or call **877-467-0875**. Associates are available Monday through Friday, 7 a.m. to 5 p.m. Pacific Time.

and hope for
your journey

Who should you call?

PATIENT CENTRAL

Patient Central is the first place to call after a diagnosis of pancreatic cancer or at any point in your pancreatic cancer journey. A highly trained and compassionate Patient Central Associate can help you access all of the services listed in this brochure, plus personalized information including:

- Disease information – receive in-depth resources relating to pancreatic cancer such as diet and nutrition, treatment options and side effect and symptom management
- Clinical trial searches
- Specialists in pancreatic cancer
- Educational materials and programs
- Support resources, including our Survivor and Caregiver Network

We will take all the time you need to help you understand this complex disease. Once you get established with one of our Associates, you will continue to speak with the same Associate, and you may call as often as needed. All services and resources are provided free of charge.

CLINICAL TRIALS

An Important Treatment Option

The Pancreatic Cancer Action Network strongly recommends all patients consider clinical trials when exploring treatment options. Clinical trials give patients early access to cutting-edge treatments that can lead to better outcomes.

Clinical trials show whether new treatments developed in the laboratory are more beneficial to people who have pancreatic cancer than currently available options. They can lead to progress in research and improved treatment options for more patients.

Call an Associate for a personalized clinical trial search to give you additional options to discuss with your doctor. Or, you can start your own clinical trial search on our easy-to-use Clinical Trial Finder.

Visit clinicaltrials.pancan.org

KNOW YOUR TUMORSM

*Powerful Knowledge.
Personalized Treatment.SM*

Know Your Tumor is a personalized medicine service that provides eligible pancreatic cancer patients and their oncologists with information about the biology of their specific tumor. Testing the tumor to understand what makes it unique is also called “molecular profiling.” This information may be used to help identify treatment options for a patient’s specific tumor, including clinical trials.

Costs for coordination of this service are covered by the Pancreatic Cancer Action Network. Other related medical costs will be billed to the patient’s insurance carrier.

Contact a Patient Central Associate to learn more and determine if this service is right for you.

PATIENT REGISTRY

Your experience. Your legacy. Your registry.

The Patient Registry is a global online database created to look for patterns in treatments, side effect management and diagnostics that will lead to improved treatment options and outcomes for patients. By joining our quickly growing community and sharing your experiences, you’re giving researchers access to crucial data that will help make discoveries.

Whether you have been diagnosed with pancreatic cancer or have provided care for someone with pancreatic cancer, your contributions are meaningful. Together, we are moving pancreatic cancer research forward.

Visit pancan.org/patientregistry to create a secure, confidential account.

For more information, contact an Associate Monday through Friday, 7 a.m. to 5 p.m. Pacific Time.
