

2017 TARGETED RESEARCH GRANTS

New! Precision Medicine Targeted Grant

Application deadline: February 15, 2017

- Provides funding for projects that can be incorporated directly into the Pancreatic Cancer Action Network's Precision Promise initiative at the end of the funding period
- Applications from academic institutions or for-profit biotechnology or pharmaceutical firms are accepted
- Up to \$1,000,000 over up to two years

New! Early Detection Targeted Grant

Application deadline: February 22, 2017

- Supports studies to utilize a cohort of new onset diabetics with high risk of sporadic pancreatic cancer; projects will focus on blood biomarkers or imaging strategies
- Applications from academic institutions or for-profit biotechnology or pharmaceutical firms are accepted
- Up to \$1,000,000 over up to four years in milestone-driven units of \$250,000 each

Questions?

Inquiries about the Targeted Grants' guidelines and application materials should be directed to Lynn M. Matrisian, PhD, MBA, Chief Research Officer of the Pancreatic Cancer Action Network, at (202) 772-3373 or lmatisian@pancan.org.
