I. GUIDELINES

BACKGROUND

The Pancreatic Cancer Action Network (PanCAN) leads the way in accelerating critical progress for pancreatic cancer patients. PanCAN takes bold action by funding life-saving research, providing personalized patient services and creating a community of supporters and volunteers who will stop at nothing to create a world in which all pancreatic cancer patients will thrive. PanCAN has a competitive Grants Program that funds the most promising and meritorious research on pancreatic cancer. Since 2003, PanCAN has awarded 234 grants to 213 scientists at 79 institutions.

The Francois Wallace Monahan Fund was created in 2017 upon the dissolution of the JLM Benevolent Fund, which received a significant testamentary gift from Francois Monahan. Francois Monahan hoped to provide graduate students, postdoctoral fellows and medical residents in biomedical fields with the financial means to continue their education and research at institutions here in the U.S.

PanCAN and the Francois Wallace Monahan Fund have partnered together to award at least one fellowship to support a graduate student, postdoctoral fellow or medical resident on a project team of a PanCAN grant recipient.

The 2023 Pancreatic Cancer Action Network Fellowship, funded by the Francois Wallace Monahan Fund, is designed to help advance developing pancreatic cancer research.

The 2023 Pancreatic Cancer Action Network Fellowship, funded by the Francois Wallace Monahan Fund, provides \$150,000 in research funding over a two-year period. The grant term begins on September 1, 2023, and concludes on August 31, 2025.

The deadline for submitting an application is May 1, 2023, at 11:59 p.m. Eastern Time. Funding decisions are anticipated by July 2023.

APPLICATION ELIGIBILITY

Conditions and Criteria:

- Be of French nationality
- Graduate student, postdoctoral fellow or medical resident on a project team of a PanCAN grant recipient
- Grants are awarded for two academic years

Use of Funds:

The 2023 Pancreatic Cancer Action Network Fellowship supports direct research expenses, including salary and benefits for the fellow, laboratory supplies, equipment (maximum of 10% of the grant), consultant fees and publication charges that pertain directly to the funded project. A maximum of 10% of the grant may be used for indirect costs.

SELECTION PROCESS

Applications will undergo an internal review process. Those applications that are determined to be qualified will move forward to the Foundation jury. Selected candidates may be invited for one or two interviews, generally in May or June.

II. APPLICATION INSTRUCTIONS

APPLICATION PROCEDURES

Applications must be submitted by 11:59 p.m. EST on Monday, May 1, 2023, to grants@pancan.org.

Applications must include a Cover Letter from the PanCAN grant recipient explaining the pancreatic cancer relevance of the applicant's research project, a Curriculum Vitae from the eligible graduate student, postdoctoral fellow or medical resident that includes reference to citizenship, and a Letter of Recommendation from someone acquainted with the applicant. In addition, please complete the Budget and Project Milestones and Timeline Templates.

All documents must be in English.

CONTACT

Please direct all questions to grants@pancan.org.
