Here's a simple step-by-step to help you make your fundraising page stand out from the crowd! Keep an eye out for **this color blue—that's how we'll call out action spots!****

**3. Select the appropriate event**

**If you are registered for multiple events**, they will all be listed on the next screen. Click the event name to access My Strider Central for the event for which you would like to personalize your page.

**If you are only registered for one event**, that event will be the only one listed on this screen. Click the event name to access My Strider Central.

**4. Click “Set up your Personal Page”**

Select the first option under “Next Steps” to start personalizing. You can also click “Edit Personal Page in the right hand sidebar.

**5. Tell your story**

Your name will be listed at the top of your personal page, so you don't need to include it in the title. The "Title" section should be an introduction to the content on the rest of the page. We suggest something personal like "My Story."

In the "Body" section, replace the current content by writing your personal story, telling why you participate in PurpleStride.

To preview your work, scroll down and click "Preview" (this will not save your changes, but will show you what your current page looks like). Once you are happy with your page, click "Save" at the bottom right corner of the page.

- Then, you can determine whether you would like your page to be public (anyone can find your page by searching your local PurpleStride participants) or Private (only people with whom you share your URL can find your page).
- When you're happy with your settings, click "Save."

### 7. Update your photo

A picture is worth a thousand words, so we encourage you to also add a photo or video to your page. From the screen where you personalized your story, select “Photos/Videos” in the right hand sidebar (you can always get back to the story page by selecting “Content” in the sidebar).

- From the “Photos/Videos” page, you can upload a photo of yourself, a loved one, your PurpleStride team from last year; the sky is the limit! Simply click “Choose file,” find the photo on your computer, and click “Open.”
  - The file must be in .gif, .jpg, or .png format
  - The file size must be smaller than 6 Megapixels or 150KB
- If you would like to create a caption to go with your photo, enter it in the caption field.
- Once you have selected your file, click “Save/Upload.”

**8. Choose a video instead of a photo**

If you're a little more ambitious and want to embed a video on your PurpleStride page, you can do that as well — but it requires a few extra steps.

- First, record your video — you can use your iPhone camera or something more high-tech!
- Then, upload your video to YouTube ([tutorial available here](#)). You will need a YouTube account for this — it's free to set up and use.
- Next, copy the YouTube video's URL.

Once you have the YouTube URL, you can go back to My Strider Central, to the Photos/Videos page. Select the "Video" radio button, and paste the URL for your YouTube video into the field.

Then click "Save"

**PHOTOS/VIDEO**

You may add either photos or a video to your page.
